Yue **Wu**

Profile Summary

Sustainability professional with experience in LCA, carbon modeling, ESG reporting analysis, and digital sustainability applications. Built a React Digital Product Passport prototype at Logitech and supported global LCA initiatives at UNEP. Combines environmental engineering with sustainability management, data analysis, and interactive web prototyping.

Personal information

Languages: **English**, **French**, **Chinese**

Skills

- LCA: ISO 14040/44, openLCA, ecoinvent
- Carbon Modeling & Decarbonization
- ESG Reporting Analysis: GRI, CSRD
- Circularity & Digital Product Passports
- Web Prototyping: React, Streamlit
- Data Analysis: Python, SQL
- Stakeholder & Project Coordination

Work Experience

United Nations Environment Programme (UNEP), Life Cycle Initiative — **Paris, France**

Intern — *Apr 2026 – Oct 2026*

- Supported global LCA methodology and data initiatives: GLAM, the Global LCA Data Access network (GLAD), and the Global LCA Platform.
- Consolidated expert feedback and revised technical materials for the GLAM publication review process.
- Contributed to GLAD webpage content, data-provider guidance, and administrator documentation; responded to platform user queries.
- Prepared concept notes and webinar materials, and coordinated partner follow-up for international sustainability data collaboration.

Logitech Europe S.A. — **Lausanne, Switzerland**

Engineering Intern — *Feb 2025 – Aug 2025*

- Built a React Digital Product Passport prototype integrating product and sustainability information, with gamification concepts for maintenance and recycling.
- Developed a product carbon model combining engineering data, usage patterns, and repair/replacement scenarios to support carbon assessment and labeling.
- Applied LCA to identify carbon hotspots and evaluate reduction options for short-, medium-, and long-term decarbonization.
- Coordinated input from 20+ internal stakeholders and experts; validated product data and demonstrated the prototype in internal workshops.

C Greene Solutions Sàrl — **Lausanne, Switzerland**

Project-based LCA Consultant — *Jan 2025 – Oct 2025*

- Conducted ISO 14040/44-aligned LCA studies for cement and chemical-sector clients, integrating academic, industry, and client data.
- Delivered client reports and technical summaries translating environmental assessment findings into practical recommendations.

Education

EPFL–UNIL–IMD (E4S) — **Lausanne, Switzerland**

MSc in Sustainable Management & Technology — *2023 – 2025*

Tsinghua University — **Beijing, China**

MSc in Environmental Science & Engineering — *2018 – 2021*

BEng in Environmental Engineering — *2014 – 2018*

Minor in Psychology — *2015 – 2018*

Selected Projects

B Lab Academy Consulting Project – One Swiss Bank **Lausanne, Switzerland**
Student Consultant *Sep – Dec 2024*

- Analyzed ESG disclosures using CSRD and GRI concepts, identifying gaps in reporting structure, consistency, and communication.
- Developed recommendations on disclosure, operational sustainability, social and environmental targets, and customer education on responsible investment.

ESG Reporting Analysis – Apparel Sector **Lausanne, Switzerland**
Course Project *Sep – Dec 2024*

- Compared corporate sustainability priorities, reporting structures, and disclosure quality using GRI, CSRD, and CSDDD concepts; developed recommendations on reporting gaps.

French Text Difficulty Prediction **Lausanne, Switzerland**
Machine Learning Course Project *Sep – Dec 2024*

- Designed and implemented a Streamlit interface integrating model predictions into an interactive workflow for classifying French text across A1–C2 levels.
- Collaborated on a Python NLP pipeline using BERT-based representations; prepared GitHub documentation and a video demonstration.

Comparative LCA – Laboratory Consumables **Lausanne, Switzerland**
Course Project *Sep – Dec 2024*

- Used openLCA and ecoinvent to compare disposable plastic tubes with reusable glassware in a Biosafety Level 2 laboratory; evaluated use scenarios and environmental trade-offs.
- Structured inventory data, assumptions, and impact calculations for ISO 14040/44-aligned technical reporting.

Additional Experience

FENCHEM BIOTEK Ltd. **China / USA**
Category Manager – Food & Nutrition Department *Jul 2021 – Jun 2023*

- Coordinated international sourcing, supplier negotiations, pricing, and delivery follow-up between China headquarters and US operations, supporting five US-based sales representatives.

Certifications

Sustainability Changemakers – B Lab Switzerland
Associate Data Analyst – DataCamp

Interests

Softball (School of Environment Team Captain), Hiking, Sailing, Photography
